NELSON
STATE SENATE

SENATOR NELSON

Thank you for the privilege of serving as your State Senator. With your help, I will continue to work towards our shared vision for making Minnesota a great state to live, work and play.

Carla Nelson

World Class Healthcare

Carla will continue working to protect patient choice, hold down premium hikes and maintain access to high quality health care. Carla helped pass the Alzheimer's Research & Support Act and Excellence in Mental Health Act to provide cost effective programs and services to these critical healthcare needs.

Jobs Creation and Economic Growth

Carla stood firm against a \$2 billion tax hike, supported family farm property tax relief and is dedicated to improving Minnesota's job climate through lower taxation and less regulation.

Doing Right for Military Veterans & Seniors

Carla helped pass legislation to end the taxation of military pensions, and to provide critical funding to our nursing homes; she will continue the fight to end double taxation of social security benefits.

Education for the Jobs of Tomorrow

Carla helped deliver historic K-12 education funding, proven reforms that drive student success and a freeze on tuition hikes to lower college debt. Carla successfully passed legislation providing vocational training and apprenticeships for high school students.
